

MANY GIFTS

SOFTWARE FOR THE GIFT DISCERNMENT PROCESS

Overview

Many Gifts helps a congregation manage a customized gifts discernment process. Some congregations start with an individual profile of spiritual gifts, personal styles and ministry passions. Other congregations use a survey that allows an individual to volunteer or to suggest others for particular tasks or positions. *Many Gifts* provides an efficient way to record individual profiles or enter survey results and prepare reports for use by a gifts discernment committee, pastors, or others. Notes can be entered about contacts with individuals and a history of involvement can be maintained.

Features

Survey Preparation (Print or Web)

- Customizable by each congregation
- Organized by categories (e.g., Church Council, Deacons, Trustees, etc.) and positions/tasks (e.g. Chair, Treasurer, volunteer painter, etc.) listed under each category
- Descriptive comments for each task
- Create and record categories for spiritual gifts, personal styles, etc.

Survey Form

- Survey form produced by software itself or word processor
- Respondent indicates willingness to serve in any task or position and/or suggest others
- Written comments can be recorded

Survey Compilation

- Names imported from most church management software programs
- Quick entry features reduce time needed to enter survey data
- Volunteer can enter data from home computer and transfer to office computer
- Online web survey option saves data entry time

View Data

- View by task/position to see volunteers and other suggestions
- View by individual to see what volunteered to do and suggestions for that individual by others

Notes and History

- Record and track individuals who have held various tasks/positions over time
- Create notes linked to individual and/or position/task for use by future gifts discernment committee

Reports

- Numerous report options to view information about individuals, categories, or specific tasks/positions
- Designed for use by “gifts discernment committee”
